# THE WATER IS OURS

“Few things in life are as enjoyable as riding an Awakeboard in a beautiful setting”

*– Jordan, Awake RÄVIK S rider*

# Welcome

---

Awake is a Swedish electric jetboard company with a vision to create exhilarating water sports experiences toward a zero-emission future.

Stay Awake

## Becoming Awake

---

"Why do I need all this gear...?" – This question is what drove wakeboarder and Awake co-founder Philip Werner to build his first electric surfboard in 2012. The real journey began one year later, in 2013, with the launch of his first electric surfboard company.

In 2017, Philip and his two partners, Daniel Aronsson and Mikael Kajbring left and founded a new company with the purpose of creating the best and most desired, cutting-edge, high-performance electric jetboards on the market.

The next milestone came in the spring of 2022, with the launch of Awake's first eFoil, the Awake VINGA.

awake

## Experience Awake

---

All Awake's electric jetboards are created with performance, safety, and ease of use in mind to give you an experience you can not be without.

We have a passion for technology, not just for the sake of technology but for what kind of experience it will be able to create for our riders.

**Performance** – we have selected the best materials, designed hulls for different types of rides, carefully engineered parts, and fine-tuned all electronics to maximize your ride – irrespectively if you are looking for adrenaline or just want to cruise.

**Safety** – is fundamental for Awake. We have automotive safety standards, 4 layers of safety in our batteries, and our eFoils are equipped with a fully covered impeller.

**Ease of use** – the Awake Flex battery, Click-to-Ride system, and our modular system testaments to making the Awake experience as smooth and easy as possible. Everything is made to enable you to focus on spending time where you want to be – on the water.

# Awake Boards

# Awake RÄVIK 3

---

The board to grow with

## Awake RÄVIK 3 / **The board to grow with**

---

The Awake RÄVIK 3, the board for the ones who want to become an electric surfer.

The V-shaped hull and generous volume makes the RÄVIK 3 stable and easy to learn on for the whole family. While also enabling some bigger turns for those who want to level up their riding.

Use the RÄVIK 3 on a perfectly calm day for a strapless adventure, always comfortable with the full covered deckpad. Attach one or two foot straps and play in the chop on a windy day.

The Awake RÄVIK 3, the perfect allround board.

## Awake RÄVIK 3 / Specifications

Top speed:	<b>55 kph / 34 mph</b>
Acceleration:	<b>0 – 50 kph / 30 mph in 4 sec</b>
Weight:	<b>23 kg / 50 lb</b>
Riding time (SR)*:	<b>Up to 40 min</b>
Riding time (XR)**:	<b>Up to 60 min</b>
Rider modes:	<b>ECO, SPORT, EXTREME</b>
Hull shape:	<b>V Shaped, Medium rocker, Wide tail</b>
Dimensions (L/W/B):	<b>179 x 62 x 26 cm / 5'9" x 24,4" x 10,2"</b>
Volume:	<b>71 Liters</b>
Warranty:	<b>24 months (EU standard)</b>

\*SR – Standard–Range battery – See pg. 44 for full information.

\*\*XR – Extended–Range battery – See pg. 45 for full information.

# Awake RÄVIK S 22

---

It's a Rush

## Awake RÄVIK S 22 / **It's a Rush**

---

Challenge yourself on every run. Push yourself further, feel everything. This is you, like never before. Push the boundaries of electric surfing with the new RÄVIK S.

The W-shaped, hydrodynamic hull, slim tail, and aggressive rocker enable deep curves, high jumps, and overall superior agility. Ride faster, always in total control no matter the conditions, even in the biggest waves or storms.

With updated modules such as speed controller, motor, and impeller. The Awake RÄVIK S 22 is made for high performance and extreme sessions.

The most extreme electric surfboard in the world.

## Awake RÄVIK S 22 / Specifications

Top speed:	<b>57 kph / 35 mph</b>
Acceleration:	<b>0 – 50 kph / 30 mph in 4 sec</b>
Weight:	<b>22 kg / 48 lb</b>
Riding time (SR)*:	<b>Up to 30 min</b>
Riding time (XR)**:	<b>Up to 45 min</b>
Rider modes:	<b>ECO, SPORT, EXTREME</b>
Hull shape:	<b>W shaped, Aggressive rocker, Slim tail</b>
Dimensions (L/W/B):	<b>175 x 61 x 27 cm / 5'9" x 24" x 10,6"</b>
Volume:	<b>52 Liters</b>
Warranty:	<b>24 months (EU standard)</b>

\*SR – Standard–Range battery – See pg. 44 for full information.

\*\*XR – Extended–Range battery upgrade – See pg. 45 for full information.

AWAKE

# Awake VINGA 3

---

The easiest high-performance eFoil

---

## Awake VINGA 3 / **The easiest high-performance eFoil**

The Awake VINGA 3 is the quickest to handle and most versatile eFoil. The board has been created to accompany new users from their first ride to mastering cruising & carving.

30 seconds setup with the Click-to-Ride system, no screws, cables, or hatches. A 5'6" double concave hull with a well-distributed 95-liter volume is compact and playful, helping everyone to progress. Safety features, such as the shielded jet propulsion, soft rails, and rounded wings, ensure peace of mind for the riders.

Ease of use at a new level. 30 seconds to set up, 5 minutes to fly, cruising within the 1st session – access to high-performance eFoiling made easy.

## Awake VINGA 3 / Specifications

---

Top speed:	<b>50 kph / 31 mph</b>
Set up:	<b>Click-to-Ride System</b>
Propulsion:	<b>Fully shielded jet</b>
Riding time (SR)*:	<b>Up to 1 h 20 min</b>
Riding time (XR)**:	<b>Up to 2 h</b>
Dimension (Board):	<b>170 x 70 x 17 cm / 5'6" x 27,5" x 6,7"</b>
Volume:	<b>95 Liters</b>
Mast height	<b>70 cm / 27,5"</b>
Wing set:	<b>Full carbon fiber</b>
Warranty:	<b>24 months (EU standard)</b>

\*SR – Standard–Range battery – (1:1 ride/charge time) – See pg. 44 for full information.

\*\*XR – Extended–Range battery upgrade – (1:1 ride/charge time) – See pg. 45 for full information.

# Awake VINGA S

---

The most extreme eFoil in the world

---

## Awake VINGA S / **The most extreme eFoil in the world**

---

The Awake VINGA S is the most powerful and advanced eFoil, crafted for riders to challenge themselves and push beyond the limits of the sports.

A 4'6" compact hull – short and slim to provide maximum freedom during the ride. Strong foot strap inserts for flexibility and total control. Shielded jet propulsion offers both greater safety and performance. 30 seconds setup with the Click-to-Ride system, no screws, cables, or hatches.

Compact and agile, safe and powerful, accessible but challenging – this is what to expect from Awake's pro-level efoil, to break the boundaries of eFoiling.

## Awake VINGA S / **Specifications**

---

Top speed:	<b>50 kph / 31 mph</b>
Set up:	<b>Click-to-Ride System</b>
Propulsion:	<b>Fully shielded jet</b>
Riding time (SR)*:	<b>Up to 1 h 20 min</b>
Riding time (XR)**:	<b>Up to 2 h</b>
Dimension (Board):	<b>140 x 60 x 15 cm / 4'6" x 23,6" x 6"</b>
Volume:	<b>60 Liters</b>
Mast height	<b>70 cm / 27,5"</b>
Wing set:	<b>Full carbon fiber</b>
Warranty:	<b>24 months (EU standard)</b>

\*SR – Standard–Range battery – (1:1 ride/charge time) – See pg. 44 for full information.

\*\*XR – Extended–Range battery upgrade – (1:1 ride/charge time) – See pg. 45 for full information.

## Awake VINGA Powder Wing 1350

---

- Smooth but dynamic cruising
- Made for stable straights at speed but yet agile in turns
- For intermediate to advanced riders
- Strong and light carbon fiber construction
- Stab configuration: Powder 450
- Rounded edges for increased safety

## Awake VINGA Powder Wing 1800

- Stable and forgiving cruising
- Made for high stability at low speed and yet playful in turns
- Easier for beginners or heavy riders
- Strong and light carbon fiber construction
- Stab configuration: Powder 450
- Rounded edges for increased safety

# Awake Flex Battery

ONE battery, several boards

## Awake Flex Battery / **ONE battery, several boards**

The Awake Flex Battery System allows you to power both Awake VINGA and RÄVIK series with the same battery.

The most advanced design and features you can expect when it comes to safety. Self-monitoring of the Li-Ion cells, continuous electronic system analysis, and various mechanical layers of safety make it powerful, durable, and reliable.

Plugging the Flex Battery into your boards can be done in one movement thanks to our Click-to-Ride system. No cable, hatch, or over-complicated locking mechanism is found in our system, making it the easiest and fastest to handle and maintain on the market.

## Awake Flex Battery / **SR**

Standard-Range battery

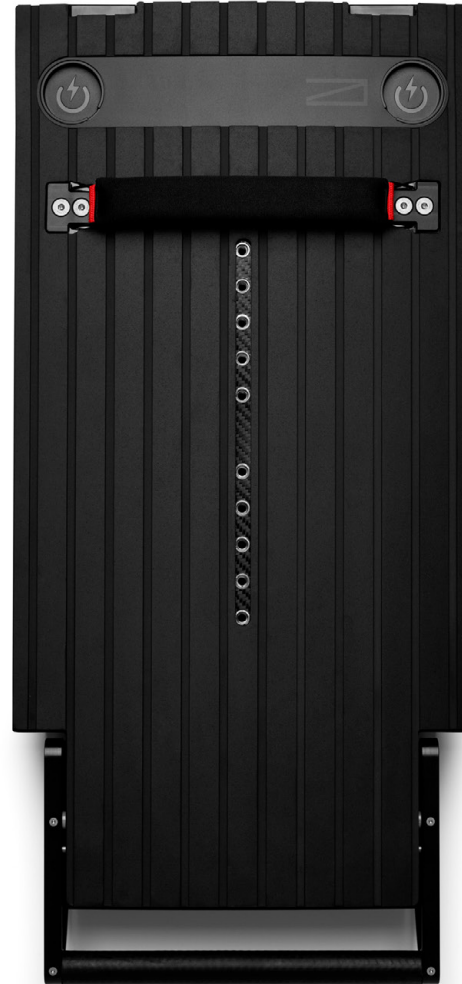

### Specifications

Capacity: **1.9 kWh**  
Charging time: **1h 20 min\***  
Weight: **18 kg / 40 lb**

### Riding time

RÄVIK S: **Up to 30 min**  
RÄVIK 3: **Up to 40 min**  
VINGA: **Up to 1h 20 min**

\*Passive cooling allows for continuous riding/charging cycles

# Awake Flex Battery / XR

Extended-Range battery

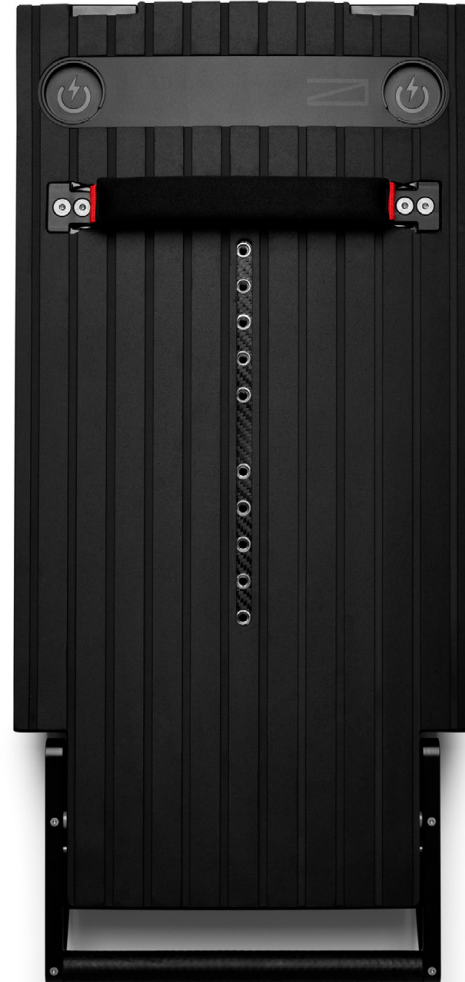

## Specifications

Capacity: **2.9 kWh**  
 Charging time: **2h 00 min\***  
 Weight: **22 kg / 48 lb**

## Riding time

RÄVIK S: **Up to 45 min**  
 RÄVIK 3: **Up to 60 min**  
 VINGA: **Up to 2h**

\*Passive cooling allows for continuous riding/charging cycles.

## Cloud-connectivity / **The Awake App**

---

Awake Boards offers you the possibility to unlock and set different features in the smartphone App. These features are for safe use and comfort; no matter what experience you have, set the correct/preferred mode in the Awake App before you leave the shore, and you'll be safe.

Remote diagnostics allow for quick and convenient customer support. If abnormalities are detected in your board, our engineers can quickly diagnose any potential issue and guide you through the support process.

When performance and safety improvements occur, you will be able to update your firmware and software via our app.

# Accessories

---

## Flex Battery Charger

- High speed charger
- Efficient, and safe thanks to the battery monitoring system (BMS)
- Custom-built enclosure for plug-and-play functionality
- Secured during charging with Awake's industry-leading locking mechanism
- Waterproof AC Inlet, water splash resistant
- Soft handle for easy carry
- Charging time

Flex battery SR: 1h 20 min

Flex battery XR: 2h

## RÄVIK Board bag kit

- Perfect-fit insert
- Dedicated accessories compartments
- Custom-fitting charger bag
- Removable large all-terrain wheels
- Water resistant material
- Easy-drain with bottom zipper
- Internal straps for secure transportation

## Awake Power key leash

---

- Magnetic safety feature to activate/deactivate the battery during riding and charging
- Overmoulded "Dead Man's Switch"
- Loose, short spring action
- Strong Dyneema material for superior quality

# Awake RÄVIK Fins

- Awake x MFC performance fins
- Manufactured with RTM Epoxy Molded technology
- Flex control and fast response for powerful carves
- Together with the optimized hull shape, they provide an unparalleled stability at higher speed
- Fits Future 3/4" fin boxes

## Awake RÄVIK Foot straps

---

- Custom made for comfort and adjustability
- Memory foam sole
- Adjustable tightness
- Four included screws fixes the bindings to the board (two per binding)
- 5 different positions are available on the board and battery

## Awake Flex Hand Controller

- Thumb-controlled wireless throttle for maximum precision and ergonomics
- Precise throttle adjustments and instant response
- Easy pairing through app
- Low battery vibration warning
- Long battery life
- Wireless induction charging
