FLYBOARD

For the easiest riders

33 kg

Board: 0.77 x 0.40 x 0.50 (m)

Hose: 0.75 x 0.57 x 0.40 (m)

Flyboard® is a board connected to a PWC turbine allowing you to rise into the air, dive and jump out of the water while performing various freestyle figures. While managing the PWC throttle, the user can fly up to 12 meters over the water surface (with a height varying according to the PWC power and hose).

Learning it, is very easy and intuitive as long as you find your balance and it takes between 2 to 20 minutes with an instructor and up to 1 hour on your own.

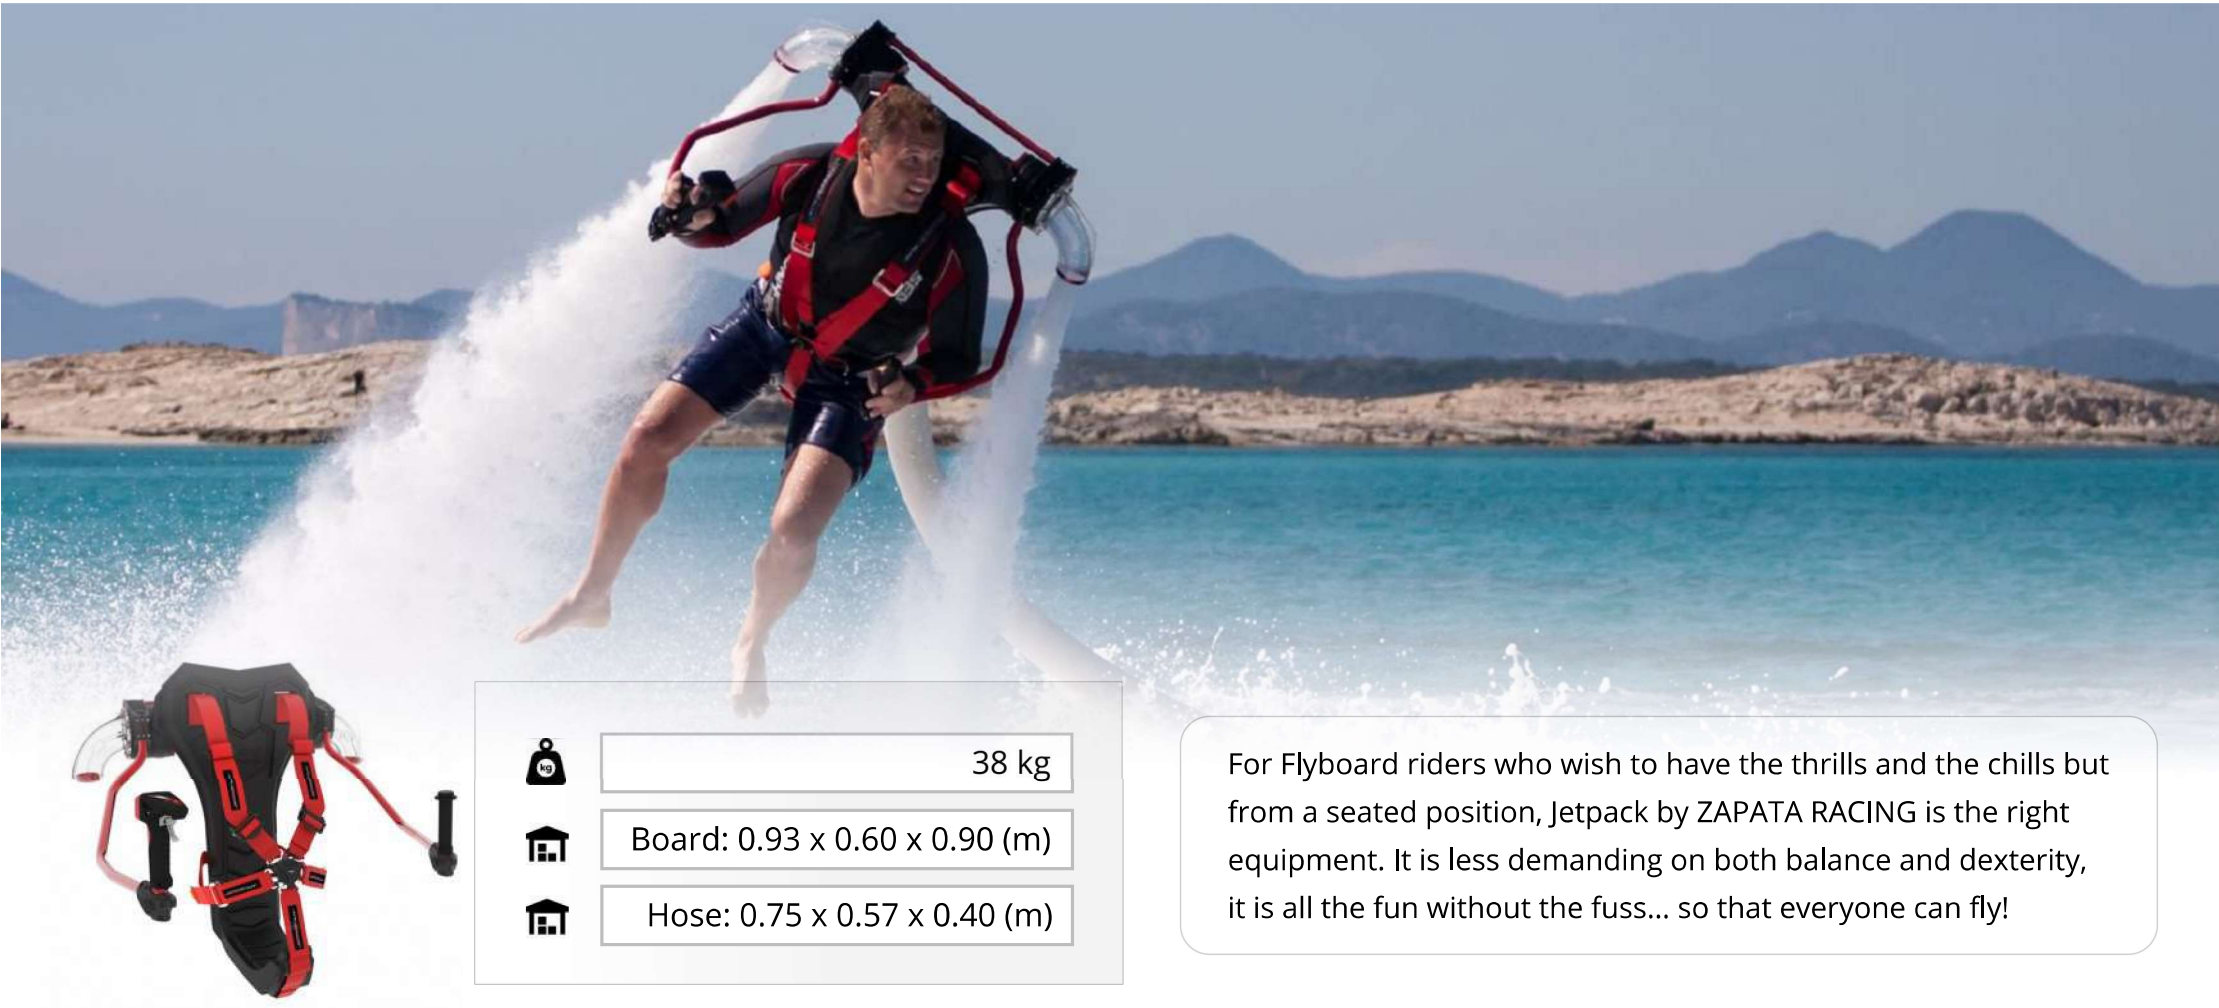

So try it out and feel the heat!

E-bikes are both stylish and practical; they are foldable, so you will be able to take them with you on outdoor activities. Lighter than some electric fold-ups, they are both distinguished for stiffness and stability. They are ideal for a cool drive around the island on cycle paths or paved streets.

Stay fit on board

Sometimes it's easy to forget your workout regimen when you are traveling, but this is when it is even more important. Exercising and feeling healthy whilst on vacation allows you to appreciate your surroundings and the setting you are in, in a unique way. Your vacation workout gives you the opportunity to stay healthy, sleep better and get rid of jetlag faster. However, just because you aren't at home with your gym handy, there is an easy way to maintain your program whilst on the road.
