## WELCOME TO THE FUTURE OF FOILING

WE TAKE TOYS SERIOUSLY

**We believe foiling is about one thing: freedom.** It's the freedom to explore the vast beauty of nature and to experience the water in new ways.

As foilers and engineers, we obsess over the details on behalf of all watermen. Each piece of our collection, from eFoils to surf foils, embodies our dedication to excellence in design, performance, and, quite simply, the ride.

Every product we make is designed by riders, for riders. We ideate. We prototype. We break things. We improve and rebuild. We're up at dawn chasing swells, on strike missions, and pushing boundaries—it's the only way to know if we've found magic.

At Lift, our commitment is to continually elevate the stoke and share it with our foiling community. We take great pride in helping shape the future of surfing for everyone.

See you on the water.

*Nick Leason*  
CO-FOUNDER & CEO

# LIFTECH

**CRAFTED TO ELEVATE**

WE TAKE TOYS SERIOUSLY

**Driven by Passion. Defined by Performance.**

At Lift, riding is in our blood. For over 15 years, we've been building more than just boards—we've been refining the feel of flying over water. Every product is rider-designed, engineered by hand, and tested in real conditions, because we believe the best gear comes from those who live the sport.

We're not here to make noise. We're here to make the smoothest, fastest, most intuitive ride on the water—whether you're chasing swell or carving flatwater. Our commitment to performance is obsessive, and our standard is simple: if it doesn't elevate the experience, it doesn't make the cut.

This isn't about trends. It's about timeless design, relentless progression, and sharing the feeling that started it all.

2026 eFOIL LINEUP

DEFINIMAR

WE TAKE TOYS SERIOUSLY

## LIFT5

# THE FLAGSHIP

**Price: € 13.900**

LIFT5 is our most refined eFoil yet, built for progression at every level and versatile enough for any rider. Outfitted with a Blowfish, new riders or families can enjoy any size board, and without it the LIFT5 is a high performance board with room to grow into. Our Lift Connect System (LCS) delivers the fastest setup in the industry, and our direct-drive motors deliver powerful, near-silent performance. On the water LIFT5 truly disappears beneath you, leaving only pure performance and clean glide.

### Why it Sells:

- ▶ Broadest rider appeal. A single platform that serves first-time riders, families, and experts.
- ▶ Blowfish expands the market and versatility of the board.
- ▶ Premium build and design. Fast, quiet, and unmistakably high quality. You feel it the moment the mast or battery clicks into place.
- ▶ Our most dialed eFoil — balanced, responsive, and smooth, with a soulful ride feel.
- ▶ Fastest set up in the industry. Fast to setup, easy to store.
- ▶ Gen5 is the safest, most robust power system yet,
- ▶ Standard with Elite Hand Controller and the new 2026 Lift Charger.

## LIFTX

# A NEW ERA IN FOILING

**Price: € 13.000**

LIFTX is built to surf. Lightweight with a narrower deck it delivers a true foil feel, only with power when you need it. Outfitted with the Lift Connect System, riders can swap propulsion placements with a click. Ultra-high mount for surf and wake, high mount for downwind and surf, or low mount for all-conditions access. It feels like a foil because it is one, just with the range and confidence of a battery. Designed for intermediate to advanced riders, LIFTX unlocks sessions that were once out of reach and sets the bar for the future of the sport.

### Why it Sells:

- ▶ First true hybrid. Rides like a foil, powers like an eFoil.
- ▶ Surf in any condition — flatwater lakes, wake, downwind, or surf.
- ▶ Any wave is accessible. Motor out, drop in, ride longer.
- ▶ Seamless transitions. No twitch, no stance switch from powered to unpowered.
- ▶ Built for intermediate to advanced riders but versatile enough to grow with your customers.
- ▶ Standard with Lift Hand Controller and the new 2026 Lift Charger.

## LIFT5 F

# THE PERFECT FIRST LIFT

**Price: € 11.600**

LIFT5 F makes eFoiling more approachable without losing the quality and feel that define Lift. Priced to open the door for more riders, it's the most accessible way into the lineup. Designed as an entry platform and school board, it shares the same performance and Lift Connect System (LCS) found in the rest of our eFoil lineup. A 28" aluminum mast connects through LCS to the board, paired with our proven bolt-on wing system and Lift Jet.

Compatible with Blowfish for added versatility, LIFT5 F is a true Lift eFoil tuned for beginners, families, demos, and schools. It's our entry-level eFoil that delivers performance of a LIFT5 with a more approachable price.

### Why it Sells:

- ▶ Most accessible price point in the Lift lineup, broadening your customer base.
- ▶ Resilient build ideal for schools, demos, and high-rotation use.
- ▶ Delivers the same ride feel and performance capability of a LIFT5.
- ▶ LCS enables fast setup, easy storage and mast upgrades to carbon propulsion.
- ▶ Compatible with Blowfish for added stability and versatility.
- ▶ Powered by the Gen5 battery for trusted safety, runtime, and consistency
- ▶ Standard with Lift Hand Controller and the new 2026 Lift Charger.

eFOIL ACCESSORIES

DEFINITION OF SERIOUSLY

## ELITE HAND CONTROLLER

# PREMIUM CONTROL

**Price: € 850**

The Elite Hand Controller spares no expense while putting the power of foiling in the palm of your hand. The product's construction features an adventure-proof carbon fiber shell and titanium hardware, and the trigger features a sophisticated actuation that can be tailored to how you like to ride. The user interface is GPS driven, and the high-resolution, full-color display enables you to easily track live speed readouts and elapsed distances while you ride. The Elite Hand Controller delivers a next generation experience that empowers you to take the sport wherever you want it to go.

*\*Prices excl. Shipping & VAT.*

## LIFT HAND CONTROLLER

# SIMPLE PRECISION

**Price: € 520**

Experience the ultimate in ride control with our lightweight, ultra-durable hand controller. The high-efficiency display and simplified UI provide quick and easy access to essential ride information. The Lift Hand Controller provides the signature control of the Elite Hand Controller trigger, allowing the user to precisely adjust speed and thrust throughout the ride. With a rechargeable battery for fast charging and Bluetooth pairing to connect to the board, eFoilers will be riding in no time. And of course, it's 100% waterproof, and it floats.

*\*Prices excl. Shipping & VAT.*

## 2026 GEN5 FULL RANGE BATTERY

# MAXIMUM RANGE

**Price: € 4.130**

The Gen5 Full Range Battery is the heart of the LIFT5 platform, embodying the simplicity, power, safety, and design that define the LIFT system. With wireless connectivity, a streamlined design, and a robust build, this battery delivers an average of 90 minutes of ride time while setting a new standard in safety. The 2026 model is now 7 lbs lighter, offering improved balance and handling without sacrificing range or durability. This evolution truly puts the power of the ride back in the rider's control, providing the confidence and convenience to get on the water and focus entirely on the experience.

#### Convenience:

- ▶ **Wireless Freedom:** Wireless design with no external cables.
- ▶ **Quick Setup:** Lift Connect System quick "set and click" installation process.
- ▶ **Intuitive Control:** Single-button operation for all functions.

#### Power:

- ▶ **Extended Ride Time:** 2.2 kWh capacity for rides averaging 90 minutes.
- ▶ **Maximum Acceleration:** Dynamic performance for maximum power output.
- ▶ **Now 7 lbs. Lighter:** The 2026 model delivers the same extended range with significantly reduced weight for enhanced balance and control on the water.

#### Safety:

- ▶ **Watertight Protection:** IP68-rated double-walled enclosure for enhanced safety.
- ▶ **Smart Safety Measures:** Proactive fault detection and short protection.
- ▶ **Secure Operation:** Handle must be engaged for power and riding.
- ▶ **Auto Shutdown:** Drop detection system and automatic shutdown if water ingress is detected.

## 2026 LIFTX BATTERY

# COMPACT POWER REIMAGINED

**Price: € 3.480**

The LIFTX Battery is the heart of our revolutionary platform, bridging the gap between eFoils and surf foils. Designed to power riders beyond the break and back home, this compact, agile battery offers an average of 45 minutes of ride time. For 2026, we refined the design to make it 1.75 lbs lighter, enhancing portability without compromising power. Rooted in our heritage and driven by innovation, the LIFTX Battery embodies our commitment to a rider-first approach and high-performance standards, ensuring you have the power and confidence to push beyond your limits.

### Convenience:

- ▶ **Effortless Connectivity:** Wireless design with no external cables.
- ▶ **Streamlined Operation:** Single-button control for easy use.
- ▶ **Quick Setup:** Simple installation for a hassle-free experience with the Lift Connect System.

### Power:

- ▶ **Dynamic Performance:** 0.9 kWh capacity delivering averages of 45 minutes of ride time, perfect for reaching beyond the break.
- ▶ **Ideal for Surf:** Compact design optimized for quick acceleration and maneuverability.
- ▶ **Versatile Power:** Reliable energy delivery designed for cruising and light enough to maintain surfability.
- ▶ **Now Even Lighter:** The 2026 version trims an additional 1.75 lbs. off the previous model for improved handling and portability.

### Safety:

- ▶ **Watertight Protection:** IP68-rated double-walled enclosure for enhanced durability.
- ▶ **Proactive Safety Measures:** Fault detection and short protection for secure operation.
- ▶ **Auto Shutdown:** Drop detection system with automatic shutdown if water ingress is detected.

*\*Prices excl. Shipping & VAT.*

## 2026 LIFTX BATTERY ADAPTER

# LIGHTWEIGHT POWER. PLUG-AND-PLAY.

**Price: € 300**

The LIFTX Battery Adapter allows you to run the lighter LIFTX battery — about 18 pounds lighter including the adapter — on your LIFT5 or LIFT5 F.

The plug-and-play design drops weight instantly, boosting responsiveness and making the board feel tighter under your feet. The LiftX Battery Adapter installs instantly, and keeps your eFoil clean and uncomplicated.

*\*Prices excl. Shipping & VAT.*

## 55MM PROPULSIONS

The 55mm propulsion system is built for reduced drag, and a lighter, surfier feel. It features Lift's direct drive motor for smooth, quiet power and comes paired with a carbon fiber mast and Lift Connect System (LCS) for quick, tool-free setup — compatible with both LCS and bolt-on wings.

**Price: € 3.480**

**Price: € 3.480**

**Price: € 3.480**

### **32" LCS Carbon 55 Low Mount**

Our most accessible 55mm setup—built for stability, ease, and all-condition versatility.

#### **Highlights:**

- ▶ Direct drive motor with low mount for increased control
- ▶ Premium carbon mast
- ▶ LCS system for fast, tool-free setup
- ▶ Comes stock on LIFTX
- ▶ Optional upgrade for LIFT5/ LIFT5 F
- ▶ Ideal for flatwater, wake, downwind, and surf

### **32" LCS Carbon 55 High Mount**

A balanced setup for riders who want control, responsiveness, and versatility.

#### **Highlights:**

- ▶ Direct drive motor with high mount for balanced performance
- ▶ Premium carbon mast
- ▶ LCS system for fast, tool-free setup
- ▶ Optional upgrade for LIFTX/ LIFT5/ LIFT5 F
- ▶ Ideal for intermediate to advanced riders in surf, wake, and downwind

### **33" LCS Carbon 55 Ultra-High Mount**

A surf-optimized propulsion with minimal drag—power only when you want it.

#### **Highlights:**

- ▶ Direct drive motor with ultra-high mount for minimal drag
- ▶ Premium carbon mast
- ▶ LCS system for fast, tool-free setup
- ▶ Optional upgrade for LIFTX/ LIFT5/ LIFT5 F
- ▶ Ideal for advanced riders in surf, wake, and pump sessions

## BLOWFISH

# UNSTOPPABLE UTILITY

**Price: € 660**

Blowfish is the do-it-all, fly over water, ultimate eFoil adventure accessory. Whether learning to ride or adding unstoppable utility to your favorite watercraft, Blowfish promises epic rides and unforgettable memories

Blowfish merges inflatable SUP buoyancy with dinghy utility, creating new ways to adventure on your eFoil. Perfect for new and experienced riders alike.

*\*Prices excl. Shipping & VAT.*

## BEACH WHEEL DECK

# READY FOR EVERY ADVENTURE

Looking to tackle more challenging terrain or simply make transporting your eFoil easier? The Beach Wheels Deck offers a durable solution. When sand or rough ground stands in the way of your next foiling adventure, the Beach Wheels Deck will be your favorite accessory.

Its large, low-pressure wheels provide a smooth and quiet ride, and the Beach Wheels Deck arrives fully assembled, allowing you to quickly attach your existing bag to the deck. Whether you're heading through town or off-road, the Beach Wheels Deck is ready for the journey.
